Ruth,
 Will there any possibility you would receive ETC's comment for the draft RCRA permit even though the comment period ended on 4/17? If they submit comment after 4/17, will you receive and consider as a valid comment?

Will there be any possibility that they submitted comment but it did not come to your attention?

It seems that HQ is very interested to see whether the ETC will appeal the State RCRA permit.

Any of your help is appreciated.

Jae

I have not received any comments. If I do, you will see the comments when I respond to them with the issuance of the final decision in approximately 4-6 weeks.

Ruth,

I guess the public comment period for the RCRA draft permit for Tardebe is ended.

Was ETC submitted any comments for the draft permit? If they did, can you share with us?

Jae

Ruth
 Has the Environmental Technology Council submitted review comments for the State RCRA draft permit for Tradebe?

Subject: Tradebe Status

Ruth,

I would like to let you know that we received response (mostly CBI) for the information request of the Desorption Units from Tradebe.

We have a meeting scheduled with Tradebe's representatives on April 12 at Chicago to discuss mass balance aspects of the units.

We are also scheduled a conference call with HQ and Region 6 on April 17.

If things are moving well, we might able to send a memo to HQ of the Region 5's position on this permit exemption issue by the end of April or early May.

Please let me know if you have any questions.

Jae

Subject: RE: Tradebe waste derived fuel issue

Jae,

As I've informed you before, any questions related to the SDS decision should be directed to John Naddy.

When you called earlier, you asked if Tradebe generates HW fuels from their fuel blending operations, and who utilizes those fuels. For clarification, my answers were in relation to their permitted fuel blending operations only. I want to ensure that you did not think I was discussing the SDS unit.

For future reference, please understand that I cannot answer any questions regarding the SDS units. I am not familiar with the SDS, nor was I involved in the original decision. I can only answer questions regarding their hazardous waste permit.

Thanks,

Ruth

Subject: Tradebe waste derived fuel issue

Ruth,

HQ came up a question that the IDEM's March 31, 2006 letter (attached) states that, in the second page, fifth paragraph, "If the unit was used to produce fuels or merely for treatment, the unit would require a HW treatment permit".

Since Tradebe generates hazardous waste derived fuels for the blending to send to off-site cement kilns, should they be required to have a treatment permit?

Any thoughts on this? This letter was referenced in the CAA permit.

Jae
